- The Electrical Course for Foreign Trained Professionals prepares participants to write their electrical license exam with the Ministry of Training, Colleges and Universities.
- This examination preparation course will provide participants valuable tips and advise for writing the Certification Exams with the Ministry.
- Once you obtain an electrical certificate you are able to make a good living in this trade.
- This course has been successful with *assisting our clients passing the licensing exam* and getting jobs in the electrical or related field.
- *The duration of the course is 7-8 weeks long on every SATURDAY depending on the progress of the class, from 10:00A.M. to 5:00P.M.*

## QUALIFICATIONS/REQUIREMENTS:

- Able to speak and write English (Minimum Level 3/4)
- Previous foreign and local electrical training and *5 years of hands on experience* (either in Canada or the participant's country of origin)

## ELIGIBILITY

- Cost of the course is \$365 for administrative fee and printing materials, and \$185 for textbook charged by Canadian Standards Association (CSA)
- Funding could be approved by Ontario Works if you are on social assistance
